konradin
publishing group

Konradin Publishing Group is one of the largest providers of specialist information within the German-speaking world.

The Konradin media portfolio comprises some 50 trade and special interest magazines, online portals and live event series, backed up by professional services ranging from corporate publishing to printing.

Konradin, a family-owned company founded in 1929, has today grown to become a successful independent media group with a consolidated group turnover of some Euro 105 million, employing around 600 people.

Konradin magazines stand out through their subject-specific expertise and many have been keeping the industries they serve informed for decades.

The core activity of Konradin Media is to deliver professional information tailored to requirements across all channels. Usefulness and efficacy are the prime concern, together with a focus on identifying developments early and highlighting prospects in order to inspire new approaches.

Our offer

Konradin market research renders complex sales segments more transparent, analyses decision-maker target groups and explores technological trends. We collaborate with established market-research institutes and can apply the entire range of method instruments, depending on your requirements.

Our range of services includes:

Advertising impact research:

This includes copy tests, pre/post-test campaigns and advertisement motive tests.

Individual market/target-group studies:

Customer awareness/brand image/customer satisfaction studies, surveys on target-group structures, market environment and products.

Joint studies:

These are market/target-group studies assigned jointly by several manufacturers or providers with Konradin acting as neutral publisher.

✓ Advertising impact research

For many of our titles, we carry out regular advertisement copy tests and our advertising customers can participate free of charge with their advertisement. These copy tests reveal powerful insights into the effects of advertising. We have compiled our findings that have been consolidated over the years in a white paper that you can request from us.

In addition, we offer individual advertisement motive tests where one or more motives can be tested:

- Attention performance and distribution (e. g. click tests with heat-map generation)
- Pleasure/displeasure characteristics, image effect, activation potential, etc.

✓ Individual market surveys

Studies conducted by mail, phone or online – we tailor study concepts to your needs and implement them professionally.

Based on our long-term experience with B2B studies, we know which method is best suited for the respective objectives and target groups. We can offer practical advice based on your particular interests and support your question-definition process with tested sample questions.

✓ Konradin target group surveys (panels)

Our target group panels allow for a simple and cost-effective method to generate answers from defined target groups.

We regularly conduct surveys with e. g. painters, joiners and opticians who, being the readers of our trade magazines, are in contact with us and give our editorial teams feedback on current topics.

Please address the media consultant of the relevant magazine if you would like to use this method to survey your market.

✓ Market studies as theme setting

The outcome of studies might surprise you, offer a basis for discussion and spark new ideas and perspectives.

Market studies set up together with our editorial teams can help raise your target group's awareness for specific topics and draw attention to your company and your services.

We offer everything from a single source: data collection, creation of a study abstract with the most important results, publication of selected findings via suitable Konradin media.

Corporate Media Services

What we offer

We specialise in tailored, company-specific B2B communication. Our range of services includes all types of corporate communication: print, online and events. We offer expert advice and develop compelling concepts in collaboration with our customers. Our technical and industry expertise focuses on the same areas as those covered in our media, particularly architecture and trades, the world of work, and additionally science and technology.

We can prepare content for you whatever level of detail is required, whether it is for a magazine or a newsletter, a specialist Internet forum or a popular science magazine. Our services range from the initial concept to final implementation and include all necessary consulting, project management, cost control, graphics and editing services.

We are always looking for opportunities to take a cross-channel approach.

context

Every issue of the customer magazine "context" features a different cover story, informing readers about the projects, partners, products and customers of Heidelberg-Cement. Four times a year, the customer magazine is sent to civil engineers, architects, planners and manufacturers.

Often awarded:

Armstrong reference book

Packed with case studies, this reference guide from flooring manufacturer Armstrong provides inspiration for architects and interior designers. More than 200 pages long, it showcases a selection of international projects to demonstrate the wide range of possible applications for the company's products.

Swiss Medtech Industry

In collaboration with the editorial staff of the trade magazine *medizin&technik*, Konradin Relations devised the content and design concept and the editorial focus of the magazine "Swiss Medtech Industry" for the Medical Cluster, an association of Swiss med-tech companies.

archiTEC24.de

The online magazine www.archiTEC24.de, which is geared to the specific requirements of architects, was conceived for the company Viessmann. The magazine includes monthly reports on reference projects, written by expert architectural journalists. On top of these come the latest reports on various aspects of heating and air-conditioning technology.

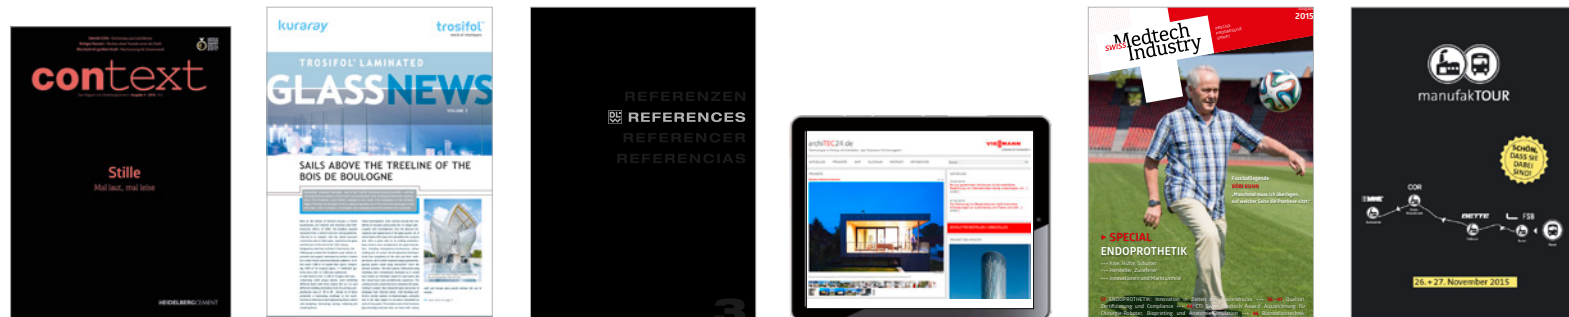

Laminated Glass News

This 16-page print newsletter from Kuraray is published once a year with a print run of 10,000 copies and is mailed to architects and engineers. The newsletter has had a makeover to make it more like a newspaper. Konradin Relations now also project-manages, produces and prints the newsletter.

manufakTOUR

The Konradin Media Group created this event format in collaboration with four companies, inviting architects on an exclusive two-day tour to give forty architects the opportunity to visit companies and take a closer look at the production processes on-site. Architects and company representatives are given ample opportunity to network and deepen important relationships. The first tour took place in autumn 2015 in East Westphalia with support from companies Bette, COR, FSB and MWE.

What we offer

KonradinHeckel is a leading media production service provider and one of Germany's largest web offset printers. It operates from two plants in Leinfelden and Nuremberg, where our state of the art production facilities are able to print your jobs to the highest professional standards.

In short, we deliver tomorrow's standards today.

We specialize in

- magazines/customer magazines
- catalogues and inserts

Our range of services spans prepress, sheet-fed and web offset printing as well as postpress and innovative ideas for your printed product.

High-performance machinery

means to us: We operate five Manroland web offset presses: one 16-page, one 32-page, one 48-page and two 72-page presses. There is full compatibility between the two sites for all products and, thanks to our in-house production according to the offset printing process standard, a high degree of reliability is assured. With CO₂-checked, FSC®- und PEFC certification, carbon-neutral, environmentally-friendly production is also guaranteed.

teamwork-net

Our teamwork-net Internet portal allows you to transmit your print data quickly and securely, to make corrections and to issue approvals. All those involved can check the current state of production at any time and from any location. The result: simplified approval, short throughput times, lower costs.

Print&Forest environmental project

Through Print & Forest, we offer every customer the opportunity to obtain carbon-neutral printed products from us. We plant trees in Paraguay for each print job carried out under the initiative. The round Print & Forest logo, which our customers can have displayed on the cover of their publication if they wish, specifies the precise number of trees planted.

Extraordinary and creative gift ideas, such as ...

Flexipor glider: This model airplane is made of extremely robust Flexipor and weighs only 53 grams – with a much better stability than its counterparts made of wood or foam.

These magic vases will puzzle your guests. Narrow and light, they have no foot and yet remain stable. The secret lies in a magnet under the surface of the table, which holds them in place.

Zoomer TM Bentley 2.0.: The interactive little robotic dog learns and understands 50 different tricks and commands. Its intelligent playing behaviour makes it the perfect interactive pet.
