Konradin
Publishing Group

Konradin Publishing Group is one of the largest providers of specialist information within the German-speaking world.

The Konradin media portfolio comprises some 50 trade and special interest magazines, online portals and live event series, backed up by professional services ranging from corporate publishing to printing.

Konradin, a family-owned company founded in 1929, has today grown to become a successful independent media group with a consolidated group turnover of some EUR 105 million, employing around 500 people.

Konradin magazines stand out through their subject-specific expertise and many have been keeping the industries they serve informed for decades.

The core activity of Konradin Media is to deliver professional information tailored to requirements across all channels. Usefulness and efficacy are the prime concern, together with a focus on identifying developments early and highlighting prospects in order to inspire new approaches.

Services **Market research**

Our offer

Konradin market research renders complex sales segments more transparent, analyses decision-maker target groups and explores technological trends. We collaborate with established market-research institutes and can apply the entire range of method instruments, depending on your requirements.

Our range of services includes:

Advertising impact research:

This includes copy tests, pre/post-test campaigns and advertisement motive tests.

Individual market/target-group studies:

Customer awareness/brand image/customer satisfaction studies, surveys on target-group structures, market environment and products.

Joint studies:

These are market/target-group studies assigned jointly by several manufacturers or providers with Konradin acting as neutral publisher.

Market research

✓ Advertising impact research

For many of our titles, we carry out regular advertisement copy tests and our advertising customers can participate free of charge with their advertisement. These copy tests reveal powerful insights into the effects of advertising. We have compiled our findings that have been consolidated over the years in a white paper that you can request from us.

In addition, we offer individual advertisement motive tests where one or more motives can be tested:

- Attention performance and distribution (e. g. click tests with heat-map generation)
- Pleasure/displeasure characteristics, image effect, activation potential, etc.

✓ Konradin target group surveys (panels)

Our target group panels allow for a simple and cost-effective method to generate answers from defined target groups.

We regularly conduct surveys with e. g. painters, joiners and opticians who, being the readers of our trade magazines, are in contact with us and give our editorial teams feedback on current topics.

Please address the media consultant of the relevant magazine if you would like to use this method to survey your market.

✓ Market studies as theme setting

The outcome of studies might surprise you, offer a basis for discussion and spark new ideas and perspectives.

Market studies set up together with our editorial teams can help raise your target group's awareness for specific topics and draw attention to your company and your services.

We offer everything from a single source: data collection, creation of a study abstract with the most important results, publication of selected findings via suitable Konradin media.

✓ Individual market surveys

Studies conducted by mail, phone or online – we tailor study concepts to your needs and implement them professionally.

Based on our long-term experience with B2B studies, we know which method is best suited for the respective objectives and target groups. We can offer practical advice based on your particular interests and support your question-definition process with tested sample questions.

Services Media production

What we offer

KonradinHeckel is a leading media production service provider and one of Germany's largest web offset printers. It operates from two plants in Leinfelden and Nuremberg, where our state of the art production facilities are able to print your jobs to the highest professional standards.

In short, we deliver tomorrow's standards today.

We specialize in

- magazines/customer magazines
- catalogues and inserts

Our range of services spans prepress, sheet-fed and web offset printing as well as postpress and innovative ideas for your printed product.

Media production

High-performance machinery

When it comes to realizing your print jobs, we are already keeping an eye on the requirements of the future. We always have the right solution and regularly introduce technical innovations such as „PressProof“, the installation of colour-accurate monitors on all presses. This enables us to offer you an end-to-end monitor proof workflow. Production no longer requires additional paper proofs, offering you decisive time and cost benefits and also protecting the environment.

Digital Print Sharing: teamwork-net

Our teamwork-net Internet portal allows you to transmit your print data quickly and securely, to make corrections and to issue approvals. All those involved can check the current state of production at any time and from any location. The result: simplified approval, short throughput times, lower costs.

Ideas for sustainable print products

We attach great importance to ecological practices in all areas of business. In addition to the FSC®, PEFC and „climate-neutral printing“ certifications, we also meet all the requirements for producing your print products with the „Blue Angel“.

And through our Print&Forest climate project, you can compensate for the CO2 emitted by reforesting trees. We will be happy to provide you with a non-binding calculation of how many trees can compensate for the CO2 emitted during the production of your print product.

The conservation of resources is of high relevance to us even early on. We thus use the waste heat from our printing presses to heat our publishing and print shop buildings.

No matter which offer you choose, you can always rely on one thing: intelligent media production that not only provides you with high-quality print products, but also the greatest possible time and cost savings in media production.

What do we have in store for you?

We look forward to hearing from you.
